

Bug Report

ID	numer-referencyjny-00001
Name	Lack of responsiveness on all pages
Reporter	Tymoteusz Krysta
Submit Date	2023-10-27
URL	<ul style="list-style-type: none">• https://angular-qa-recruitment-app.netlify.app/• https://angular-qa-recruitment-app.netlify.app/form• https://angular-qa-recruitment-app.netlify.app/stepper
Severity	Critical
Priority	High

- **Description:** The website is not responsive when accessed on mobile devices.
- **Steps to Reproduce:**
 - Access the website on a mobile device.
 - Observe the layout and navigation.
 - Attempt to navigate through different pages.
- **Expected Result:** The website should be responsive, adapting to various screen sizes.
- **Actual Result:** On mobile devices:
 - Only the "Welcome" and "Form" links are visible in navigation.
 - The "Stepper" link along with Twitter and YouTube icons are invisible.
- **Recommendation:** Responsive design techniques, such as media queries and flexible layouts, should be applied to address this bug.
